

Title: Software Developer

Work Location: Fairfax, VA

Description:

Mid level software developer responsible for supporting the customer's mission to build, test, and deploy intelligence solutions. Work entails developing capabilities for a Services Oriented Architecture (SOA), creating standards-based portlets for inclusion into a portal environment, and interaction with the stakeholders, preparing documentation, and providing thoughtful leadership on various development issues.

Qualifications:

Requires 4 years of development experience, 2 years of Java, 1 year of Ajax, experience with BEA WebLogic, and basic database knowledge. Also requires good communication skills, ability to work in a team environment, and flexibility to provide varying levels of support to the project. Education requirements are a HS diploma with 14+ years of experience, an AA degree with 10+ years of experience, a BS degree with 8+ years of experience, or an MS degree with 6+ years of experience.

Requires an SCI Clearance (or Top Secret with High Qualifications)
