

Title: Systems Integrator

Work Location: Fairfax, VA

Description:

Requires a mid level integrator to support the integration of intelligence applications. The applications provide reporting writing/tagging, cross domain solutions, and portlet capabilities for the customer. The person in this position should possess the ability to install, customize, implement, and maintain new or upgraded application releases supporting critical systems. It is necessary to ensure availability, reliability, and optimal performance of HW/SW components. The work will be performed in a secure environment.

Qualifications:

Requires experience with Sun, Unix, and 5+ years of SW development experience in COTS integration and deployment. Education requirements are a BS with 8+ years of experience, and MS with 6+ years of experience, or a PhD with 3+ years of experience. Knowledge of DIIG or experience with J2EE, Systinet, or the specific customer are desirable.

Requires an SCI Clearance (or Top Secret with High Qualifications)
